

GANESH KUMBHAR

Fullstack Developer

+91 9096378354 | ganeshhh2003@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [HackerRank](#) | Pune, Maharashtra – 411004

PROFILE SUMMARY

- Full-stack developer passionate about building scalable **web applications** using **modern JavaScript frameworks**.
- Skilled at **translating business requirements into optimized code**, ensuring technical solutions align with client needs.
- Dedicated to continuous learning and self-improvement, showcasing a **diverse portfolio of engaging interactive projects** designed to enhance user experiences and drive user engagement across platforms.

TECHNICAL SKILLS

- Languages and Databases:** JavaScript (ES6+), TypeScript, MongoDB, MySQL
- Frameworks and Libraries:** React.js, NextJs, Redux Toolkit, jQuery, Express, Bootstrap, Tailwind CSS
- Other Skills:** HTML, CSS, Responsiveness, SEO, UI/UX, JSON, REST APIs, Babel, NPM, Node.js, Jest, Git, GitHub

EXPERIENCE

Seven Mentor Corporate Services Pvt. Ltd. | Pune, Maharashtra - 411004

ReactJs Developer | Full Time

February 2025 – Present

- Leading technical problem-solving efforts, ensuring seamless project execution and client satisfaction.
- Enhancing development workflows and deployment efficiency using Vite, reducing build times by 10%.
- Conducting thorough code reviews and enforcing best practices to improve project scalability and minimize post-deployment bugs by 15%.

ReactJs Developer | Internship

October 2024 – January 2025

- Developed dynamic, scalable web applications using **React.js**, **Tailwind CSS**, **Node.js**, **Express.js**, and **MongoDB**, improved performance by **25%**.
- Resolved technical issues in real-time, ensuring uninterrupted project **workflows** and **enhancing client satisfaction**.
- Optimized development workflows with Vite, achieving a **10% reduction** in build times and improving deployment efficiency.

PROJECTS

Quick-Cart | [Source Code](#)

Technologies used: HTML | CSS | JavaScript | React | Tailwind CSS

- Developed a high-performance E-Commerce platform with **secure checkout**, **real-time search**, and **dynamic filters**, enhancing the shopping experience.
- Integrated **JWT authentication** and an **admin dashboard** for seamless user and product management.
- Optimized for **speed and mobile responsiveness**, ensuring smooth navigation across device.

Dream Homes | [Source Code](#)

Technologies used: HTML | CSS | JavaScript | React | Leaflet

- Engineered a property platform with real-time messaging, advanced search, dynamic filters, and user-friendly interfaces, boosting user engagement and simplifying searches.
- Implemented Leaflet for interactive property mapping, enhancing user engagement and search precision.

CERTIFICATIONS

- | | | | |
|----------------|------------------------|---------------------|-----------------------|
| • React | HackerRank June 2024 | • JavaScript | HackerRank May 2024 |
| • CSS | HackerRank June 2024 | • MySQL | HackerRank Nov 2023 |

ACHIEVEMENTS

- Achieved **Gold Badges** in **JavaScript** and **Java** on **HackerRank** by completing **50+** coding challenges, showcasing deep understanding of core programming concepts.
- Achieved **90+ scores in Mathematics** in SSC, HSC and Engineering exams reflecting my strong analytical and problem solving skill.

EDUCATION

Bachelor of Technology (B.Tech.) in Electronics and Telecommunications Engineering | CGPA: 8.4

Karmayogi Institute of Technology Shelve, Pandharpur (Aug 2020 – Aug 2024)

Solapur, Maharashtra
